DETAILED ACTION

Response to Amendment

The Request for Continued Examination filed 26 April 2007 has amended independent claims 1, 9, 22, 24, and 26 to include the changes discussed in the telephonic interview on 25 April 2007. Additionally, dependent claims 10, 11, 13, 16, and 18 were amended, corresponding to terminology changes in claim 9.

Allowable Subject Matter

Claims 1-5, 7-13, 15-19, and 22-30 allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not suggest the common patentable limitation found in independent claims 1, 9, 22, 24, and 26. The prior art does not teach an apparatus that activates in proximity to a magnetic field, wherein a device circuit, separate from a power control circuit, provides a signal to maintain connection of the power source to the device circuit after the magnetic field is removed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wood (US 6,104,333) discloses a tag device with an internal power supply.
